

## Holy Manners \*

1. We recognize that we can't find a way without good listening and that we need each other's help to become better listeners.
2. We will slow down so we have time to think.
3. We expect it to be messy and confusing at times.
4. We will be respectful of each other and greet new and different ideas with curiosity and respect.
5. We will be honest in saying "yes" or "no" to taking action.
6. We will take care of each other.

Liaison then asks: Any others you would like added?
