

**Licensing Terms**  
**for Trauma Informed Ministry, *A Primer for Ministries***  
**by Diane J. Strickland**

**1. Individual Licence:**

- An individual licence belongs to the person who purchases it (the licensee) and may not be shared, copied or transferred to anyone else or used by anyone else. Colleagues of the licensee may review the resource without making copies or storing it electronically.
- An individual licence entitles the licensee to download and print the PDF file any number of times for their own use, to view it on their computer(s) and to use the ePUB file on their devices, in perpetuity.

**2. Group Licence:**

- A group Licence is for the specific number of roles/positions in your community of faith or organization indicated in your licence purchase—(5, 10, or as negotiated with the copyright owner) in perpetuity.
- Each person in one of those roles/position can download as many file copies as needed on their computers, or other personal use devices, and print as many copies as they need.
- Use of all those copies **is limited to the licensed roles/positions.**
- Master copies also may be stored on one designated computer in the community of faith or organization (for example, an office computer.)
- As people in various roles/positions change in the community of faith or organization, new people receive their files, and previous people in those roles/positions delete or destroy their digital files and copies (they may also pass on their printed copies to a new person in the role/position to conserve paper use) or order their own individual licence to continue using the primer.
- A group licence for a judicatory is only for those roles and positions working for the judicatory, not those they oversee or govern.

Please download, save and print these terms for your reference. Thank you for compliance.
