

Case Study 3: Everywhere Events

Tonya helps people in a long-term care home near her. Often, she is in charge of events that connect families with loved ones in other countries for holiday events. She thinks a hybrid virtual/in-person option is possible.

Hearing is an issue for some people, and she is wondering how to keep both the in-person group and the hybrid group participating in the event.

Challenge: Improve the design of these events through a design for social justice and green design lens.
